

## **OCONUS PCS: Storage Suggestions**

It's worth saying that many people waive the storage option altogether. If you'd rather just downsize, that is completely up to you. But, the option is there if you can do without items for a few years, but not forever. Here is our (albeit short) storage list.

1. Washer and dryer (a set is provided for us and bringing our own is discouraged)
2. Outdoor furniture
3. Additional refrigerators and freezers
4. Curtain rods (housing where we're headed all has preinstalled curtain hardware)
5. Any holiday décor or home décor that might exceed the weight limit
6. Car-top carrier
7. Power tools
8. Any furniture that won't fit due to a downsize in square footage
9. Carpet steamer
10. Lawn equipment

It is possible to also store (or ship for that matter) a car; we just opted to sell ours.
